

ASSEMBLY and INSTALLATION

// Perform hand guard parts sub-assembly according to the diagram until it represents the completed assemblies as shown.

// Paste the decals (19).

// Install bracket seat (12) and bracket press cover (10) onto right side of handlebar with nut (9) and bolt (13).
 // At this step, just use the bolt and nut to fix one end of the bracket assembly.

i » The left side bracket is assembled in the same way.

// Position the right hand guard (4) into the bracket assembly (14) as shown, then install the nut (9) and bolt (13), but do not fully tighten it.

i » The left hand guard is assembled in the same way.
